

Cybersecurity: New Threats and Challenges

September 26, 2013 **Richard M. Harrison**

Related Categories: Cybersecurity and Cyberwarfare

On June 25th, Rich Harrison organized and chaired an AFPC briefing held for senior staff members of the U.S. House of Representatives Science, Space, and Technology Committee. The main presentation was given by internationally acclaimed expert, Dr. Abe Wagner, who has been involved in cybersecurity issues since the inception of the internet. Dr. Wagner's talk focused on internet security, the need for new legislation, and the need to educate the number of gifted people needed to defend the U.S. against cyber attacks. The Defense Technology Program Brief is based on Dr. Wagner's presentation.
