Richard M. Harrison

VICE PRESIDENT OF OPERATIONS AND DIRECTOR OF DEFENSE TECHNOLOGY PROGRAMS

Richard Harrison is the Vice President of Operations and Director of the Defense Technology Program at the American Foreign Policy Council (AFPC). He currently serves as managing editor of AFPC's Defense Dossier e-journal, which covers national security and defense issues, architect and program manager of the Strategic Primer initiative, and as editor of AFPC's Defense Technology Monitor e-bulletin. Harrison runs a briefing series on Capitol Hill to educate Congressional Staff on defense technology issues affecting U.S. national security. He is also responsible for managing AFPC research fellows and interns, planning foreign delegations, and overseeing all internal events and business support services for the organization.

Harrison completed his Master's degree in Security Studies from Georgetown University's School of Foreign Service and he also earned a Bachelor's degree in Aerospace Engineering from Penn State University and a language certificate in elementary Mandarin Chinese from Peking University. Previously, he worked at Lockheed Martin where he functioned as a systems engineer.
