Now in its third edition, *The World Almanac of Islamism* is the first comprehensive reference work to detail the current activities of radical Islamist movements worldwide. The contributions, written by subject expert, provide up-to-date assessments on the contemporary Islamist threat in all countries and regions where it exists. Each country study will include valuable metrics for gauging the advance or decline of Islamism.

In places where Islamists are not in power, these include year-on-year comparisons of the number of terrorist attacks that have taken place, the level of popular support being received by radical religious organizations and political parties, and applicable government responses to these trends, if any. In places where they are in power, metrics encompass relevant changes to domestic human rights practices and social conditions, foreign policy rhetoric and action, and the overall stability of the state.
